SUMMARY

Transitioning from mechanical engineering to computer science, I bring a unique blend of analytical problem-solving skills and a strong foundation in engineering principles. Motivated to explore the dynamic world of technology, I am currently pursuing a computer science degree to broaden my knowledge in programming and Web development. My background in mechanical engineering has instilled in me a meticulous approach to challenges, adaptability, and a drive to innovate. As a computer science student, I am eager to embrace new opportunities, leverage my diverse skill set, and contribute to the ever-evolving field of technology with creativity and determination.
